NOTE ON OPTIONS 6 & 7:

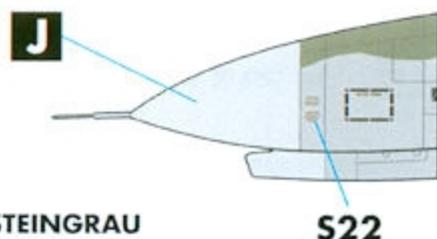

"ICE-13" AND "ICE-43" WERE TWO OF THE AIRCRAFT INVOLVED IN THE F-4F UPGRADE PROGRAM. THESE AIRCRAFT TESTED THE VARIOUS F-4F IMPROVEMENTS INCLUDING THE INSTALLATION OF THE APG-65 RADAR AND THE AIM-120 AMRAAM INTEGRATION.

ONLY OPTIONS 6 & 7 CAN BE ARMED WITH AIM-120 AMRAAM MISSILES. PHOTOS SUGGEST THAT TYPICALLY ONE TEST MISSILE WAS CARRIED IN THE FRONT PORT (LEFT) SIDE MISSILE BAY. WE PROVIDE DECALS FOR THESE SPECIALLY MARKED MISSILES ON THE SHEET (MARKINGS S33- S35).

PLEASE PAY ATTENTION TO THE ALIGNMENT OF MISSILE FINS AND THE RED/WHITE SECTIONS OF THE TEST MARKINGS.

NOTE THAT THE UPGRADED AIRCRAFT HAD A GRAY RADOME AND AN ADDITIONAL WARNING STENCIL ON THE PORT SIDE AS SHOWN BELOW:
